FINDLEY LAKE, NY 14736

Re: Notice of Proposed Premium Rate Change

Class A001 - A001/All Actives

Plan Description	**HIOS ID**
Univera Access Standard Gold	78124NY1030041-00

Dear Group Administrator:

Univera Healthcare is filing a request with the New York State Department of Financial Services (DFS) to approve a change to your group premium rates for 2027. New York Insurance Law requires that we provide a notice to you when we submit requests for premium rate changes to DFS.

DFS is required by law to review our requested rate change. DFS may approve, modify or disapprove the requested rate change.

Proposed Premium Rate Changes

Class A001 - A001/All Actives
Plan: Univera Access Standard Gold
If approved, the percentage change to your group's premium is 12.70%

Please note that while we try to provide you with the most accurate information possible, the final approved rate may differ based on the benefit plan design and other features that you select on renewal. Also, the final approved rate may differ because DFS may modify the proposed rate.

Why We Are Requesting a Rate Change

We understand that any increase to your premium may be frustrating. Rising costs and growing demand for health care - especially for hospital services and prescription drugs - are driving up premiums nationwide, challenging patients, doctors, businesses, health insurers and the entire health care system.

We're seeing significant increases in the cost and/or demand for hospitals services, prescription drugs and other medical care.

Premium rates are the direct result of the cost and demand for medical care and prescription drugs. What you pay for health insurance largely reflects how much we pay for your care.

Friends and Neighbors,

I'm writing to share information about recent and upcoming work being performed in our community by National Grid to modernize the local electricity system, meet the region's growing energy needs and improve long-term reliability of service.

As part of National Grid's commitment, these upgrades will take place near the intersection of Route 430 and School Street, in the vicinity of Bailey Hill Road.

These upgrades include construction of new electric utility equipment that will supplement the existing National Grid substation, which is located on School Street. They will also include installation of a small pad-mounted transformer surrounded by protective bollards (see example above), plus utility poles and other equipment that support the local distribution network.

You may have recently noticed forestry work that took place in the area. National Grid completed this work to prepare for construction. Meanwhile, beginning in July, National Grid crews will perform grading work to ensure proper drainage and improve site access. Additional upgrades to electric delivery equipment along School Street and north of Route 426 will continue throughout the remainder of the year and are expected to be completed by next spring.

I understand that new construction activity can raise questions, and I want to let you know that National Grid is committed to minimizing impacts on our community: Company crews will maintain safe access throughout the area, and any temporary disruptions will be carefully managed. While some equipment and construction activity will be visible during the project, the completed facility will occupy a relatively small footprint.

Most importantly, these system improvements will not result in any additional charges on your National Grid bill.

We appreciate your patience and understanding as National Grid completes this important work. If you have questions about the project, please do not hesitate to contact me.

All my best to you for a safe and most enjoyable summer.

069904	Chautauqua County C.A.P. #4 Town of French Creek Town of Mina Town of Sherman	96.00	100.00	Final	10.82%

Column C is the percentage change in the estimate of full value between the 2025 State equalization rate and the 2026 State equalization rate due to the change in full value standard.

This percentage change is important because county and school taxes are apportioned according to a municipality's share of the full value of the county or the school. A municipality will be apportioned a larger share of the tax levy if its full value increases by a larger percentage than others, or if its full value decreases less than the decrease for other municipalities in the county or school.

The information shown in columns B and C is subject to change as other rates are established in the county. You will be sent a complete report when we have established 2026 State equalization rates for all municipalities in your county.

TOWN CLERK'S MONTHLY REPORT

TOWN OF MINA, NEW YORK — JUNE, 2026

TO THE SUPERVISOR: — PAGE 1

Pursuant to Section 27, Subd 1 of the Town Law, I hereby make the following statement of all fees and moneys received by me in connection with my office during the month stated above, excepting only such fees and moneys the application and payment of which are otherwise provided for by Law:
