Supervisor Campbell reported this meeting is being held to discuss the Fuel Depot Use Agreement between the Franklinville Fire District and the Town of Franklinville. The Franklinville Fire District is in need of fuel services and rather keeping a tank on site for the little use they would like to share services.

The Town Board discussed not charging a maintenance fee at this time due to the Fire Department's minimal historical usage of the facility, which based on prior years would equate to less than \$200 annually. The Board noted that if usage increases in the future, the matter may be reviewed and reconsidered.

The Board also acknowledged that the Fire Department is a volunteer organization that serves the entire Franklinville community. As a condition of use, the Fire Department is required to list the Town as an additional insured on its insurance policy to provide coverage in the event of any incident related to the use of the facility.
