RESOLUTION NUMBER: 56 YEAR: 2026

MOVED BY: Mr. Forward SECOND BY: Mr. McClory

TITLE: Support of Williams' Constitution Pipeline Project

WHEREAS, Williams is a national energy infrastructure company that handles approximately one third of the natural gas used each day in the United States to heat homes, cook food, and generate electricity;

WHEREAS, the Northeast region faces persistent energy affordability challenges and natural gas supply constraints that have resulted in higher electricity and heating costs for families and businesses;

WHEREAS, currently much of the Northeast region relies on foreign sources of energy;

WHEREAS, dependence on foreign sources of energy leave consumers more susceptible to price spikes caused by global affairs;

WHEREAS, domestically produced energy supports the American workforce and provides consumers with insulation from energy market impacts of international conflicts;

WHEREAS, increased interstate natural gas pipeline capacity alleviates energy supply constraints, improves system reliability during peak demand periods, and places downward pressure on energy costs for residential, commercial, and industrial customers;

WHEREAS, the Constitution Pipeline is a proposed natural gas transmission line designed to transport energy from the Marcellus Shale region in northeastern Pennsylvania to support key markets across New York and New England;

WHEREAS, the project adds approximately 650,000 dekatherms per day (Dth/d) of pipeline capacity, equivalent to the daily energy needs of about 3 million homes in the U.S. Northeast;

WHEREAS, the Constitution Pipeline strengthens the Northeast's energy infrastructure by enhancing energy security and supporting economic growth, and provides a cleaner, lower-emitting alternative to heating oil;

WHEREAS, construction activities span Pennsylvania and New York and include pipeline installation, metering and regulating stations, and connecting new infrastructure to existing transmission systems;

WHEREAS, the Constitution Pipeline is associated with approximately 1,500 construction jobs and \$295 million in direct labor income;

WHEREAS, the project is associated with \$13 million in property tax revenues and \$100,000 in additional New York and Pennsylvania income tax revenue;

NOW, THEREFORE, BE IT RESOLVED, that The Town of Franklinville supports the Constitution Pipeline Project and urges timely consideration and approval of necessary authorizations;

BE IT FURTHER RESOLVED, that The Town of Franklinville supports investments in energy infrastructure projects that promote U.S. energy independence, improve reliability, affordability, and economic opportunity for residents and businesses.

RESOLVED, the resolution as stated above is hereby adopted by a majority vote of the Town of Franklinville Town Board at an official meeting held on the 22 day of May the year 2020, the ayes and nays take and recorded below:
