EARLY NOTICE AND PUBLIC REVIEW OF A PROPOSED
ACTIVITY LOCATED IN THE 100-YEAR FLOODPLAIN

To: All interested Agencies (HCR, Allegany County DOH), Groups, and Individuals.

This is to give notice that the Village of Almond, NY has conducted an evaluation as required by Executive order 11900 and 11990, in accordance with HUD regulations at 24 CFR55.20 Subpart C Procedures for Making Determinations on Floodplain Management, to determine the potential affect that its activity in the floodplain and wetland will have on the human environment for the Village of Almond South Main Street Water Main Improvements Project under CDBG# (To Be Determined).

The Village of Almond plans to implement a Water Distribution System Improvements Project to address aging infrastructure of the Village's existing water distribution system along various streets within the Village of Almond, Allegany County, NY.

The proposed project includes replacement of approximately 6,000-feet of water main to be replaced on various streets within the Village including S. Main St, McHenry Valley Rd, Whitney Valley Ext, Angelica St, Crescent Pl, and Canacadea St. Approximately 0.25 acres of the project along Canacadea St and approximately 0.25 acres along South Main St are located within the 100-year floodplain.

There are three primary purposes for this notice. First, people who may be affected by activities in floodplains and those who have an interest in the protection of the natural environment should be given an opportunity to express their concerns and provide information about these areas. Second, an adequate public notice program can be an important public education tool. The dissemination of information about floodplains can facilitate and enhance Federal efforts to reduce the risks associated with the occupancy and modification of these special areas. Third, as a matter of fairness, when the Federal government determines it will participate in actions taking place in floodplains, it must inform those who may be put at greater or continued risk.
