An issue the police are having is that we are in need of another full-time officer as well as more part-time officers. There was much discussion on rental units within the Village of Allegany. The Village would like to limit the number of rental units by either issuing permits for rental units and only allowing so many per year or by making changes to the zoning laws to only permit rentals in certain areas of the village. The board members asked for a list of current properties that have renters and would like more information on how other municipalities handle this issue.

Clerk Treasurer has drafted a letter to be mailed to the business properties along Main Street to notify them that the sidewalks and bricks are their responsibility and that if they are in need of repair, they will be notified to get them fixed.

Monthly DPW Report

Month: August 2026

Routine:

- *Locates completed as needed*
- *Worked on residential meters as needed*
- *Picked up garbage on Main Street and at Park/Boat Launch*
- *Vehicle maintenance as needed*
- *Swept village streets*
- *Mowed Parks and village properties*
- *Yard Waste pickup last Monday of month*

Sewer:

- During severe storms, power went out at Lift Station #1. New generator did not start. Gerwitz & McNeil Electric responded as they were the ones who installed it, which could not get generator running. Hooked up portable generator and bypassed stationary generator. While pumping down, a malfunction happened causing a power issue within the pumps. Chris Mooney was called as he has knowledge of the electric in the pump control panel, in which he was able to get one of the pumps working due to a phase power issue (National Grid Side). Once national grid repaired their issue, pumps 1 and 2 worked fine. Pump 3 is currently down due to an internal issue. Xylem will be coming in the near future to repair pump and do PM's on both stations. Generator was repaired as it turned out to be a bad gas meter, not allowing enough gas to fire the generator.

Water:

- Replaced Hydrant #79 on St. Joe's Dr
- Pressure tested, disinfected and bacteria tested St. Joe's to Sydney Dr loop. Line is now in service.
- Completed restoration of driveway and roadway on Circle Oak from water main leak
- Flushed Hydrants
- EJP provided a hands on hydrant training prop for DPW employees.

Streets:

- Cut out and replaced parts of edge of roadway on Sydney and new section of St. John's Drive due to significant cracking. Will look to possible Nova-Chip that area next year
- Continued crack sealing village roads
- Upgraded approach to DI on Sydney drive due to road sinking
- Installed French drain on edge of road on Sydney Dr due to complaints from adjoining property of water flooding back yard during heavy rains.
- Painted school zone posts on N. 5th Street and top of Maple Avenue
- Picked up trees/branches from recent storm

Parks:

- Cattaraugus County Soil and Water assisted submitting a work permit with DEC to place rip rap in the outlet for the transfer station storm drains. The area eroded the river bank during heavy rainfalls.
- Sealed basketball court and boat launch driveway with excess sealer left over from municipal building
- Cleaned up trees/branches that fell during wind storm. Will need to take down a few more trees at some point soon.
- Dug out and placed blacktop to entrance near pavilions due to it retaining water and starting to blow out the road.

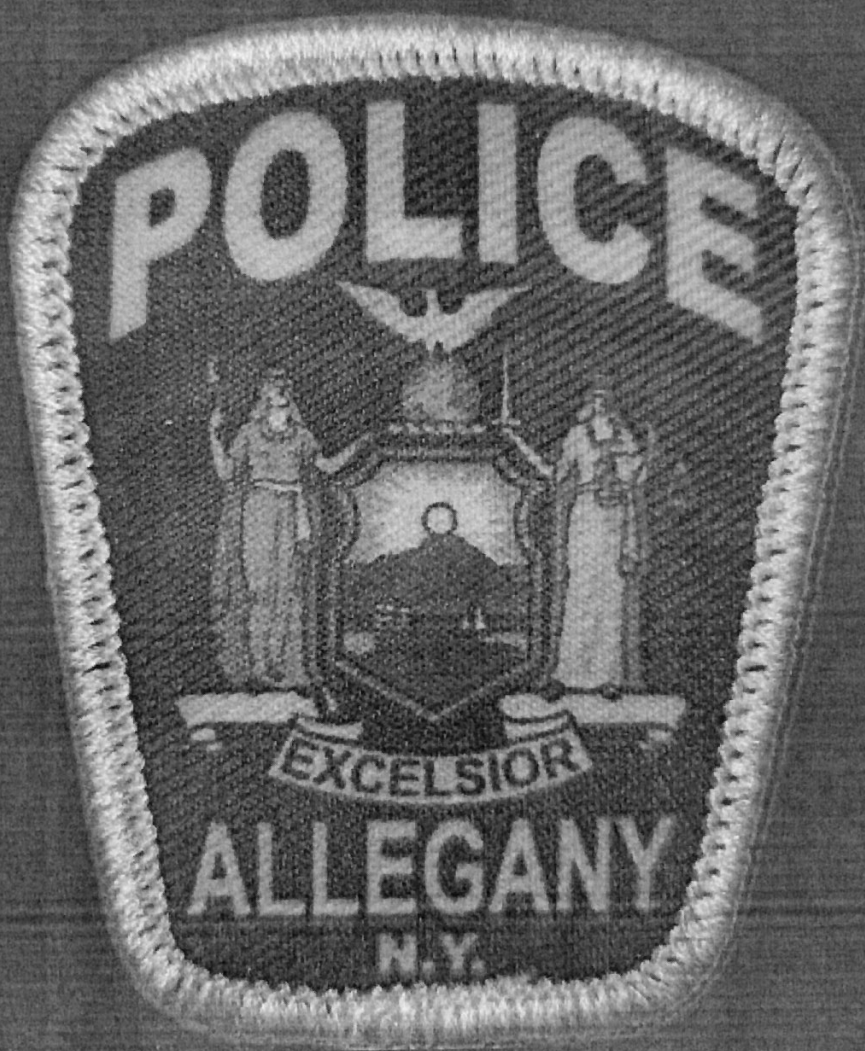

Vehicles:

- 1999 Ford Bucket Truck was sold on Auctions international for \$3,350.00

Buildings:

- Sealed and re-striped parking lot and placed new signs at municipal building
