Excused: Russ Boehner; Scott Cummings, Co-Chair; Brian Pender; Dan Roush

Absent: Tim Hull

We had a good turnout at the public meeting for the Comprehensive Plan. 68 residents signed in with 27 from the Village, 39 from the Town, and 2 unspecified. I think a couple more arrived later and neglected to sign in. 9 committee members were present as well as Jim Pashek, Jeni Easton, and a new intern, Lola Hodgins along with Lisa Schmidtfrerick Miller to help with the presentation and answer questions.

Tom Carlson gave an introduction with the definition, purpose, and need for municipalities to have a Comprehensive Plan. Then Jenni went through a summary of what we've accomplished so far, and what's next to complete the Plan. Finally, all those present were asked to review four pairs of boards the Pashek staff created and provided for the meeting. These boards represented the subjects covered by the sub-committees. As with the previous public meeting, we were asked to note any comments, ideas, etc. on sticky notes and to place these and/or dot stickers next to issues we were in support of on the boards.

Afterwards, there were groups of residents who stood around chatting for a while. I think all was well received with more good information and opinions collected. People were able to catch up with their friends and meet others that they may not have known before, compare thoughts and ideas.

PLEASE NOTE that another survey has been developed, and you should be able to access it on the Mayville Village and the Town websites. It is also posted on the

Mayville Community Connection facebook page. There is a new QR code to load the survey onto your phone to complete then submit also there is a web link to the survey. Please notify others that this survey is available and needs to be completed by as many residents as possible as it does cover additional information not collected previously.

Attached are the notes from Pashek MTR compiled from this public meeting and workshop.

Respectfully submitted,
Sharon M. Smead
